Some Facts About the Rogers' "Raphael" Pattern Silver Plated Tableware.

It is not generally known that there are several grades of Rogers & Hamilton's spoons & forks, made in their "Raphael" pattern.

For instance, the "Raphael" is made in "triple plate" and also in "Crown Hamilton" ware. The triple plate is good, serviceable ware, but to anyone who wants the highest grade of silver plated spoons and forks produced in the world we recommend the "Crown Hamilton." Crown Hamilton ware contains double as much silver as the "triple plate" goods, and for service it has no equal. We offer both grades to-morrow at lower prices than they have ever been sold heretofore.
